

PAWS Photo – Digital Imaging Services

Scanning

High resolution scans of negative and positive film originals up to 8X10" using Nikon and Epson scanners. Service includes chemical cleaning of the original (if needed), software dust and scratch removal, and basic tone/color adjustment. Scans are returned on CDs (media charge of \$7.50/CD – typically 12-15 files per CD).

Scan Prices				
10 Mb	25 Mb	50 Mb	75 Mb	100 Mb
\$10	\$20	\$30	\$35	\$40
250 Mb	300 Mb	350 Mb	400+Mb	
\$55	\$60	\$65	\$85	
Effective January 2010				

Printing

Archival inkjet printing on a variety of media including traditional photographic papers, fine art papers, and artist canvass. We currently use the 24" Canon iPF Prograf 6100 printer with Lucia™ inks. This printer/ink combination insures excellent color and grayscale rendition, good detail, and long print life. The following are prices for typical sizes and media types. Our minimum size is 8x10". Sorry, we do not print smaller sizes except for a volume order.

Printing					
	12x18	16x20	16x24	20x30	24x30
Type A (\$)	18.00	27.00	32.00	50.00	60.00
Type B (\$)	22.50	33.50	40.00	62.50	75.00
Canvass (\$)	--	37.00	44.00	69.00	82.50
Effective March 2010					

Type A Media: Traditional Photographic Papers (we use media from Lexjet)
 Type B Media: Fine Art Papers from Hahnemule and Somerset
 Canvass: Lexjet Polyester Water Resistant material (oversprayed for protection).

Print costs are based on square footage. Type A: \$12.00/sq, Type B: \$15.00/sq, Canvass: \$16.50/sq. Discounts for duplicate prints ordered at same time 2-4, 10%; 5-9, 15%; 10+ 20%.

Finishing

Traditional mounting, matting, and framing – including conservation framing. Your print can be glazed with standard artist glass, matte glass, or TruVue™ glass. Framing can be metal or wood.

We also offer full bleed mounting on a variety of very stable proprietary foam core mount boards up to ¾" in thickness. This board can be finished with a plastic edging for increased durability. Over lamination is available for prints mounted on foam core to protect prints not placed under glass.

We offer canvass mounting services on handmade stretcher frames for additional depth and stability. Canvass prints (whether mounted or not) are sprayed (gloss or matte) to provide surface protection and UV blocking.

Instruction and Software Work

I offer Photoshop and Lightroom instruction, and Photoshop work on problem images. Basic charge is \$30.00/hour. Call to discuss your needs.
